# Lab Internships in The Netherlands...

## ScientiQ Staffing

Shifting boundaries, conquering challenges while working on your future. Reaching the top! ScientiQ Staffing is the recruitment agency for specialists in the laboratory brance. From our office in Breda (NL) we help professionals and students to move on in their career.

#### The Dutch Lab Experience

Looking for an Erasmus Internship? With our internship project: "Dutchlab Experience" we give you the opportunity to work in the best laboratories in The Netherlands. You will gain essential and international work experience! Besides that, you will learn about these companies.

#### The work and the companies

This will not be a normal internship with a thesis, a project and a conclusion. It will be about real daily work routine. You will learn what you can expect, how the equipment works and how the companies are organized. This means that you will work with their regular employees and learn on the job. Of course there is more time to guide you and learn about the environment and equipment.

## Fields

We mainly work the fields of Food, (Petro)Chemistry, Pharma, Environmental and Agricultural Sciences.

- Physical Chemistry
- Analytical Chemistry
- Organic Chemistry
- Microbiology
- Moleculair Biology
- Hydrobiology
